

# MEET THE **METi**

## THE BEAUTIFULLY RUGGED DIGITAL TABLE

Beautiful things aren't always fragile. The new METi Digital Table from media mea looks like a work of art, but has an industrial heart - designed, engineered and manufactured to handle all the bumps, knocks and spills that are part of busy retail and public settings.

Put a bright, full HD 47-inch interactive display table in the middle of the action to deliver information, drive engagement and stimulate sales and sign-ups. Sleek, minimal and stunning. Your METi tables can be custom-branded and color-keyed to your exacting specifications. With a Corning Gorilla Glass protective face, waterproofing and rugged structural materials, METi Digital Tables are built to last and stay beautiful.
