## Interactive Multitouch Display Desk Table (Indoor)

The new **MEAC HD** Multitouch Display Desk Table Series from media mea features a high definition LCD display which can support multiple simultaneous touch points. The aluminum and steel Desk Table is a useful feature for an architect at office or in school where the Desk Table is likely to find itself. Wireless connectivity takes the form of 802.11n Wi-Fi and an option for a 3G/4G connections. Sizes range from 32" all the way to 55" with LED backlit LCD high luminance display at 120Hz and is protected by a haptic, ultra-clear, 5mm tempered glass surface. The 1080p display features a 178 degree viewing angle, and its solid state optical multitouch system can support up to 6 simultaneous touch points enough for a Desk Table with a 5-10 ms touch response time. The MEAC Series are made for specifically architects but could also be used in other applications.
