Interactive Digital Coffee Table Series

The **MESA** Interactive Multi-Action Coffee Table series successfully integrates the touch screen technology into a coffee table design. It is a coffee table with interactive touch capability and a piece of designer furniture which complements the interior design of your office, showroom, and home with entertainment and information/ Concierge services.

This interactive table supports multi-touch function and can be operated by multiple users interactively. It allows everyone to manipulate photos scattered on the desktop at the same time using just two fingers to enlarge, shrink, and drag the image as needed on the screen. It also takes any multi-touch third party for gaming or simply map information and search activities.
